

MACHINE GUNS REPRESS RIOTERS IN WATERBURY

Some 2,000 Strikers, Mostly
Foreigners, Attack Police;
140 Arrested.

WATERBURY, Conn., March 26.—The utmost tension was felt here today after the swift suppression of an outbreak of ugly rioting yesterday by the appearance of machine guns on motor trucks handled by policemen who had seen service in France as machine gunners. The riot ended and 140 strikers are under arrest, charged with sharing in it. There is a clothes basket at headquarters filled with revolvers, ammunition, knives and blackjacks taken from the prisoners, who are nearly all foreign born and speak but little English.

The fighting yesterday began when Policeman Fitzgerald arrested a picket who was using force to keep workmen away from the plant of the Waterbury Clock Company. A score of bystanders wrenched the prisoner from the policeman and then beat the officer, tearing strips from his uniform. Fitzgerald, after several other policemen had come to his aid, was found on the ground with a severe stab wound in his side and was taken to a hospital.

The call for the machine guns was answered when strikers to the number of 2,000 had pushed to the spot and were attacking every policeman in sight. The appearance of the armed trucks caused a panic flight but police reserves, following the machine guns took many prisoners.

A detachment of the State Guard is mobilized at the armory, but the

police believe they have the situation under control.

Receiver for Restaurant Company.
Judge Knox, in the United States District Court, to-day, appointed Allen R. Menhard, of No. 120 Broadway, receiver for Chert, Inc., described as the owner of restaurants at No. 5 East 44th Street, at 69th Street and Broadway, and in an uptown department store. Alexander R. Boyd, declaring himself both stockholder and creditor, said the company's liabilities are \$100,000 and its assets approximately \$200,000.

INDUSTRY everywhere is suffering from decreased production.

Every executive who bases his conclusions on facts knows that with the coming of hot weather there will be a further decrease in production, due to the fact that men will not put forth their best efforts when suffering from oppressive heat.

You can help overcome the annual summer "slump" and actually increase production if you will but install the necessary number of General Electric Fans.

G-E Fans increase production by keeping your workers cool and comfortable, thus enabling them to do their best work even under the most trying hot weather conditions.
